NEW SIGs

We are proceeding to renew and set up new SIGs. Before establishing their final composition and aiming to make a more participatory society (*#ParticipaSED*), we have created a questionnaire to, first of all, know our partners areas of interests and preferences.

After analyzing the survey results, new SIGs have been created (*Clinical Management and Codification, Intrathecal Infusion, Integrative Medicine, Regenerative Medicine, Pain and Primary Care, Low Back Pain, Ultrasonography, Nursing*).

You can find SIGs composition in the following link: <https://www.sedolor.es/grupos-de-trabajo/>

SED JOVENES

“*SED Jóvenes*” (“SED Youth Group”) is a priority project for 2020-2024 lead by 3 members-at large of the new Executive Board. Its aim is offering a remarkable place to young professionals dedicated to the study and treatment of pain. (<https://www.sedolor.es/jovenes-sed/>)

1ST RESIDENTS MEETING

In line with the intention of promoting the correct approach to pain among younger professionals, we are going to carry out the *First Interdisciplinary Meeting of Residents* on February 25. It is an open forum made by and for the youngest, where doctors in training will be in charge of presenting clinical cases for debate.

We are proud to announce that we have received almost 100 clinical cases and, to the current date, there are more than 350 registrations received.

SIGs MEETINGS

We intend to hold the annual scientific meetings of the working groups in virtual mode during the months of May and June.

These are educational sessions of 1-2 days length that address current issues in the different areas in which the members of our SIGs are working.

The next SIGs meeting are:

20th april 2021: 5th meeting of the Pediatric Pain Group, that will be attended next 20th april, with the slogan “Caring for children in pain and their families: an inexcusable duty”. <http://www.dolorinfantil.es/2021/inicio>

12th may 2021. Annual SIG Opioid meeting: “Do we apply the basic rules for opioid prescribing?” <https://www.sedolor.es/evento/jornada-anual-del-gtsed-de-opioides/>

20th may 2021: 10th meeting of the Neuromodulation SIG. This time the group will share scientific program with the new *Intrathecal Infusion* group. Program and schedule are not available yet.

AGREEMENTS WITH NEW SOCIETIES

We are working to sign new agreements in the upcoming months with the Spanish Society of Radiation Oncology (SEOR) and with the Spanish Society of Anesthesiology and Resuscitation (SEDAR).

All agreements are available in our website:

<https://www.sedolor.es/profesionales-y-formacion/convenios/>

PARTNER SOCIETY OF THE II COVID CONGRESS (APRIL 2021)

As one of the main Spanish scientific societies, we have been invited to co-chair the II covid congress (<http://2congresocovid.es>). A two-hour session dealing with pain and covid has been booked already as well open SED partners posters and oral presentations.

We encourage all EFIC members to follow our session, that will take place next Tuesday 13th april, between 18:00 – 20:00 hrs. on the website:
