

SEE YOU IN LYON 2025 PAIN IN EUROPE XIV

COMORBIDITY OF CHRONIC PAIN AND MENTAL HEALTH DISORDERS: BREAKING THE CYCLE

14TH CONGRESS OF THE EUROPEAN PAIN FEDERATION EFIC®
24-26 APRIL 2025 | LYON, FRANCE

EFIC-CONGRESS.ORG
#EFIC2025

PROGRAMME AT A GLANCE THURSDAY, APRIL 24, 2025

Plenary Refresher Course Topical Workshops Debate Workshops Demonstration Workshops Networking

	Auditorium	Room 1	Room 2	Room 3	Room 4	Room 5	Room 6
08:00							
	Pain management in people with substance use disorders						
09:00	Early Life Experiences And Chronic Pain						
	Early career plenary: Pain as a comorbidity of mental health disorders						
10:00							
	Exploring The Intersection Of The Lived Experience Of Depression And Chronic Pain	Painful Diabetic Polyneuropathy From Bench To Bedside: Novel Pathophysiological Mechanisms, Diagnostic Test-Oriented Stratification, Mechanisms-Based Therapeutic Challenges.	Chronic Pain And Mood And Anxiety Disorders: Insights From A Multidisciplinary Consortium Featuring Early Career Researchers	Clinical Masterclass: Multidisciplinary approaches to strengthen self management for patients with chronic pain	Too Much Or Too Little? An Overview Of Opioid Epidemics In The World		
11:00							
12:00							
13:00							
	Interoception: Bridging Chronic Pain And Mental Health? Exploring New Insights And Intervention Opportunities Throughout The Lifespan	Translating Non-Invasive Neuromodulation Into Clinical Practice In Chronic Pain (And Depression)	The Paradox Of Self-Injurious Behavior: Why Do People Cut Themselves - Because Of Or In spite Of Pain?	Clinical Masterclass: Risk factors for developing pain: implications for real-life clinical practice.	Exploring The Shared Experience And Impact Of Cancer-Related Pain	Ergonomics: A Barrier Or Facilitator For State-Of-Art Work-Related Musculoskeletal Care?	
14:00							
15:00	CB1-Mediated Analgesia: Unravelling Therapeutic Efficacy And Central Side Effects	Chronic Pain And Substance Use Disorders: Co-Morbidities And Treatment Solutions	Evidence And Controversies In Temporomandibular Disorders		Moving The Field Forward: Interdisciplinary Approaches Towards Understanding, Preventing, And Treating The Impact(S) Of Psychological, Racism-Based, And Socio-Political Trauma On Youth And Families With	Motor Behaviour And Pain In Real Life Settings: Current Clinical And Research Advances	Cellular And Population-Level Coding Of Temperature And Pain In The Rodent And Human Brain
16:00							
	The Interplay Between Pain And Mental Health Disturbances In Autism And Neurodevelopmental Disabilities: From The Lab To The Real-World	Improving Work Outcomes For People With Chronic Pain: New Data On The Relationship Between Pain And Work And The Evidence For Current Work-Focussed Interventions	Brain Networks Relevant To The Affective Dimension Of Pain: Imaging Risk And Resilience In Unique Patient Populations	Clinical Masterclass: Evaluation, management and treatment of pruritus			
17:00							
18:00	Opening Ceremony						
19:00							
20:00							
21:00

PROGRAMME AT A GLANCE

FRIDAY, APRIL 25, 2025

Plenary Refresher Course Topical Workshops Debate Workshops Demonstration Workshops Networking

	Auditorium	Room 1	Room 2	Room 3	Room 4	Room 5	Room 6
08:00							
	Neurobiological substrates underlying the interactions between mood						
09:00	Neuroimaging chronic pain and mental health disorders						
	Brain stimulation for chronic pain and psychiatric disorders						
10:00							
11:00	Neuroimaging- And Neurophysiology-Based Predictive Models Of Acute And Chronic Pain	Stress-Pain Interactions: Neurobiological Mechanisms And Clinical Implications	Connecting Emotions, Brain, And Body In Complex Regional Pain Syndrome As A Model For Pain Chronification After Trauma	Clinical Masterclass: Preoperative and post-operative opioids.	Treatment Guidelines For Neuropathic Pain: Pharmacotherapy And Neuromodulation	The Complexity Of Chronic Pain: How To Accept Uncertainty And Handle Multifaceted Datasets To Predict The Development Of Chronic Pain And Treatment Efficacy	
12:00							
13:00							
	Phenotyping chronic pain in population studies, and measuring associations						
14:00	Treatment Side-effects and Analgesic efficacy						
	Monoclonal antibodies for chronic pain (Co-organised with EFH)						
15:00							
16:00	Migraine: are specific physiotherapy exercises needed or not?	Why And How Clinical Neurophysiology Can Be Used To Evaluate And Stratify Patients With Chronic Pain. Toward Objective Sensory Testing	Psychological phenotyping: methodological and clinical implications	Nursing Masterclass: From Novice to Expert: Career pathways for pain nurses across Europe.	Improving Trust And Quality In Pain Research: Recommendations From Three International Networks	Novel Psychological Mechanisms In Chronic Pain: New Directions And Application To Comorbidities In Mental Health	
17:00							
18:00	CULTURAL ADAPTATION RESEARCH OF PAIN EDUCATION INTERVENTIONS, TO BUILD BRIDGES BETWEEN CULTURES AND HEALTHCARE PROFESSIONALS	Innovative Approaches to Pain Management in Rheumatoid Arthritis, Mapping Mechanisms to Treatments: Insights into Peripheral and Central Sensitisation.			Unraveling Itch Induction And Modulation: Bridging The Gap From Animals To Patients.	Pain And The Bayesian Brain: An Introduction To Computational Modelling Of Pain Perception And Its Usefulness To Study Cognitive Modulation Of Pain

PROGRAMME AT A GLANCE SATURDAY, APRIL 26, 2025

Plenary Refresher Course Topical Workshops Debate Workshops Demonstration Workshops Networking

	Auditorium	Room 1	Room 2	Room 3	Room 4	Room 5	Room 6
08:00							
	Debate: Nociceptive pain						
09:00							
10:00							
11:00	A Sorrow Shared Is A Sorrow Halved: Novel Evidence On The Impact Of Social Factors On Pain-Related Outcomes	Chronic Pain And Comorbid Affective Disorders: Towards Mechanistic Understanding And Novel Treatments, With Consideration Of Sexual Dimorphism	Receptor Channels And Their Crucial Role In Different Pain Condition	Research Masterclass: USE OF ROUTINELY COLLECTED DATA AND REAL-WORLD EXPERIMENTS IN PAIN RESEARCH - AN IMPACT UPDATE	Habituation To Noxious Stimuli: History, Mechanisms And Clinical Potential	Spine-Related Leg Pain: Unravelling Complexity Towards Personalised Care	
12:00							
13:00							
14:00	Nociceptive Mechanisms Of Human Spine Pain	The Interruptive Function Of Pain And Its Cognitive Modulation, An Update Of Fundamental And Clinical Research	Integrated Technologies For Chronic Pain		Appraisals Of Injustice In Chronic Pain - Mechanisms, Implications, And Associations With Mental Health		
15:00							
16:00	Central Disorders Leading To Secondary Chronic Pain: Dissecting Concepts And Mechanisms To Improve Patient's Quality Of Care		Lessons Learned From Three Initiatives Developing Core Outcome Sets (Cos) For Pain Across The Lifespan		The Pain Catastrophizing Debate	Understanding The Social Dimensions Of Pain: From Research To Clinical Practice	
17:00	Psychedelics in chronic pain and mental health disorders						
18:00	Evidence-Based Analysis Of Healthy Lifestyle Interventions In Chronic Pain Neuroinflammation and Neurodegeneration in chronic pain
